SYSTÈME D'EXPLOITATION
TRAVAUX PRATIQUES

Compte rendu du TP Système
d'exploitation

Élève ingénieur :
Ayoub BOUAOUD

Enseignant
Dr. Imane RABHI

9 novembre 2025

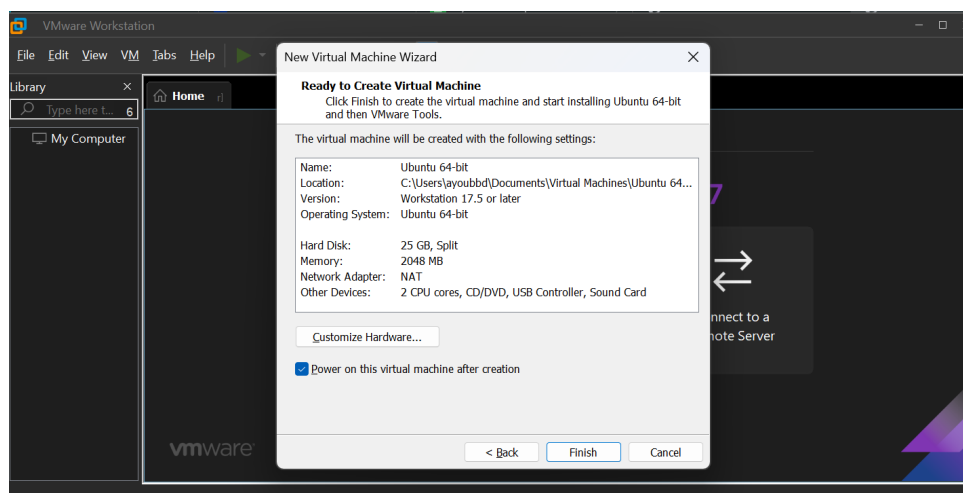

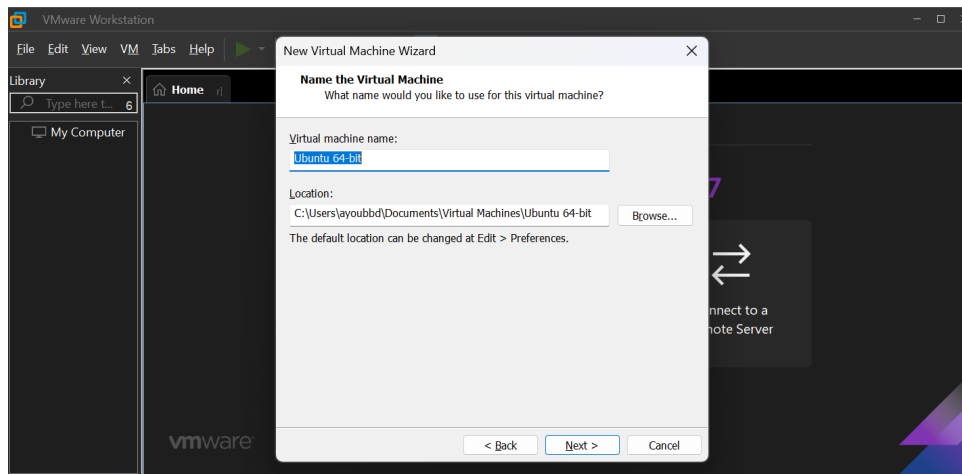

Table des matières

1	Installation d'un système Linux	2
1.1	question 1.1	2
1.2	question 1.2	3
1.3	Gestion des utilisateurs	7
1.4	Invite de commandes	8

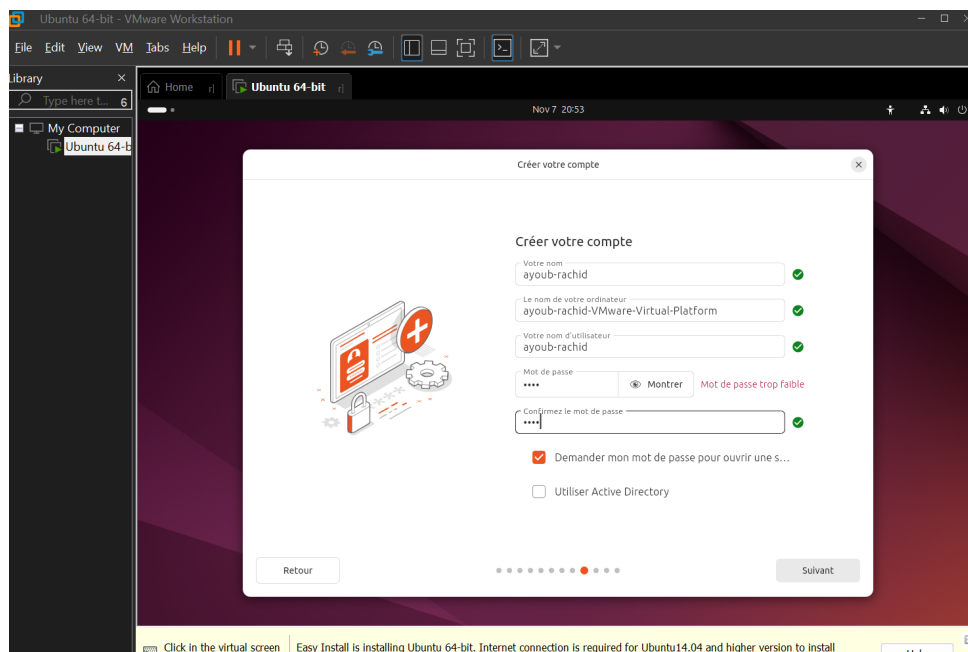

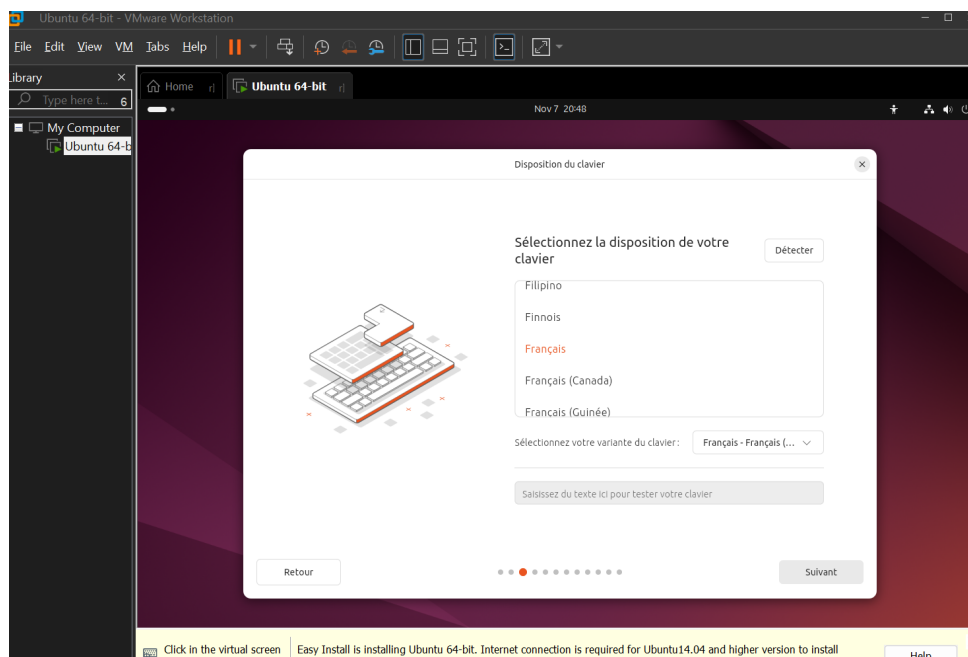

Table des figures

1 Installation d'un système Linux

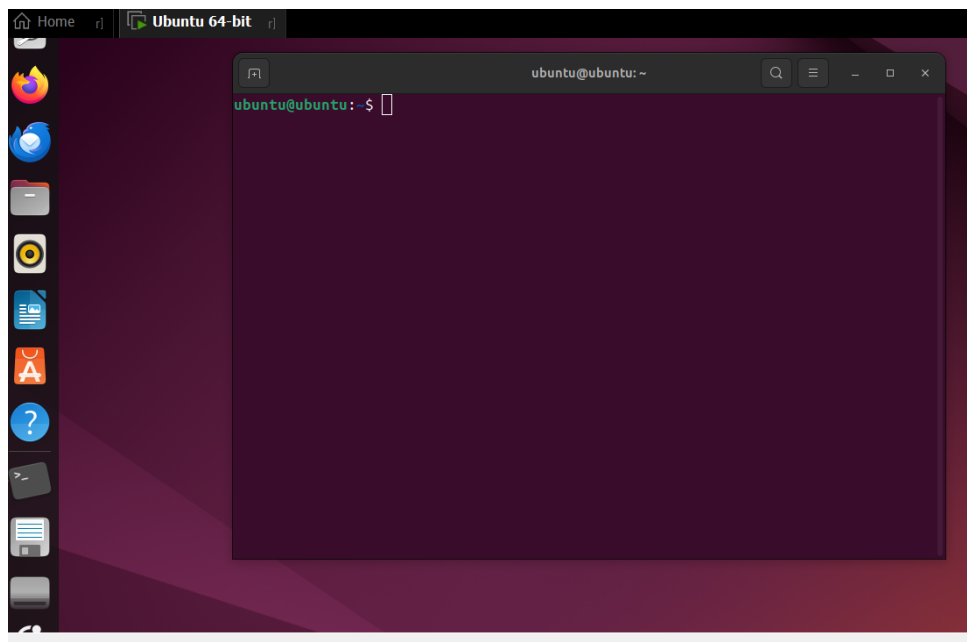

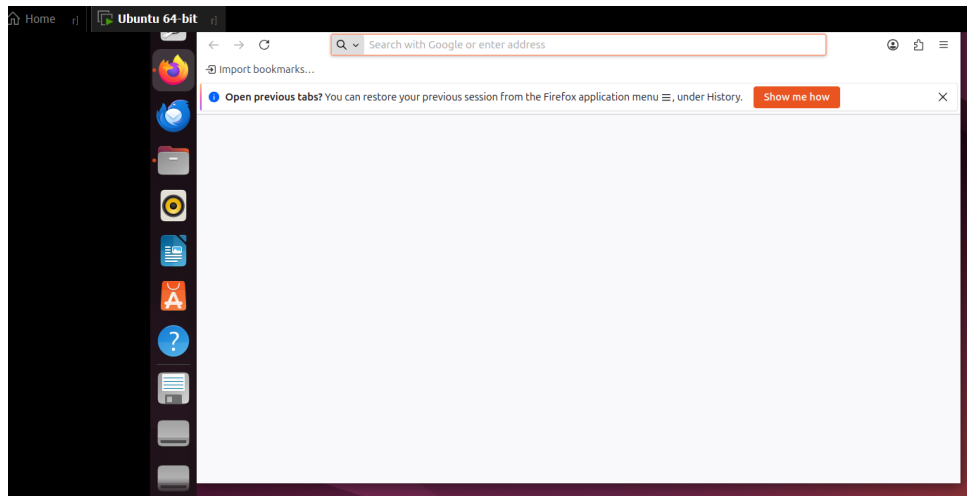

1.1 question 1.1

1.2 question 1.2

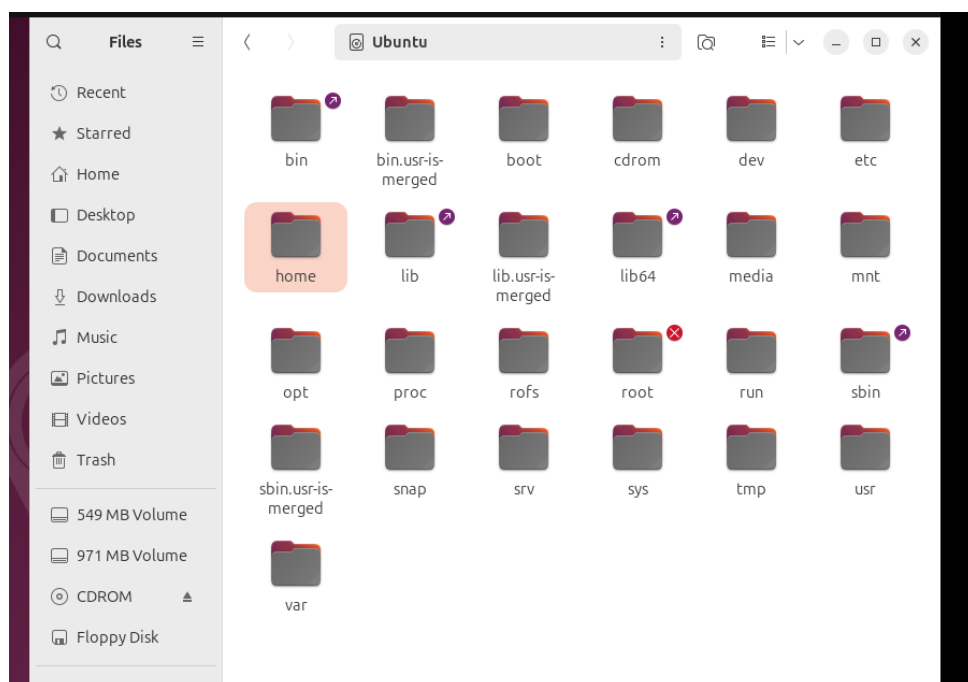

Découverte de l'interface graphique

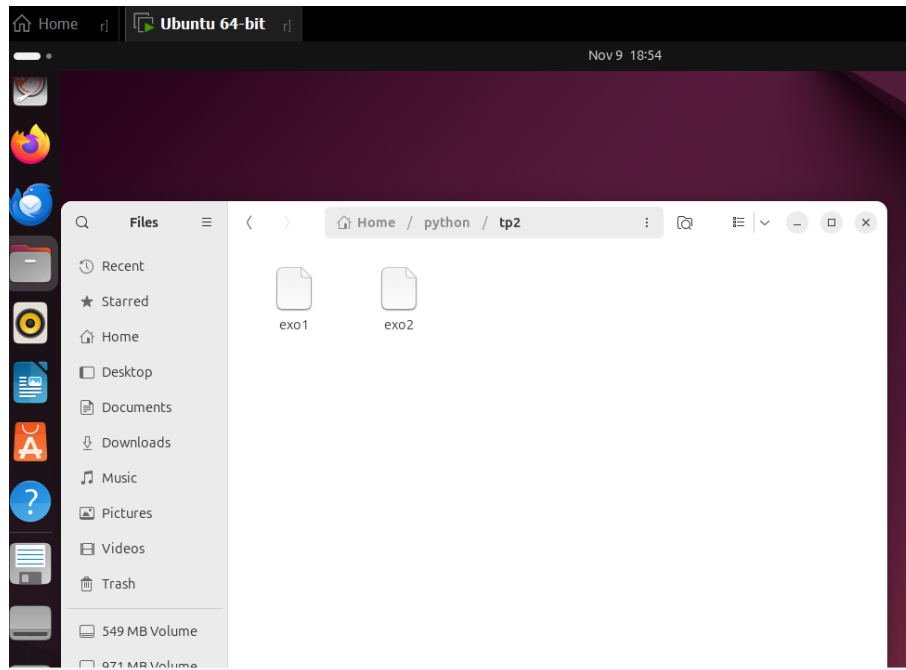

Nov 9 18:22

Processes Resources File Systems

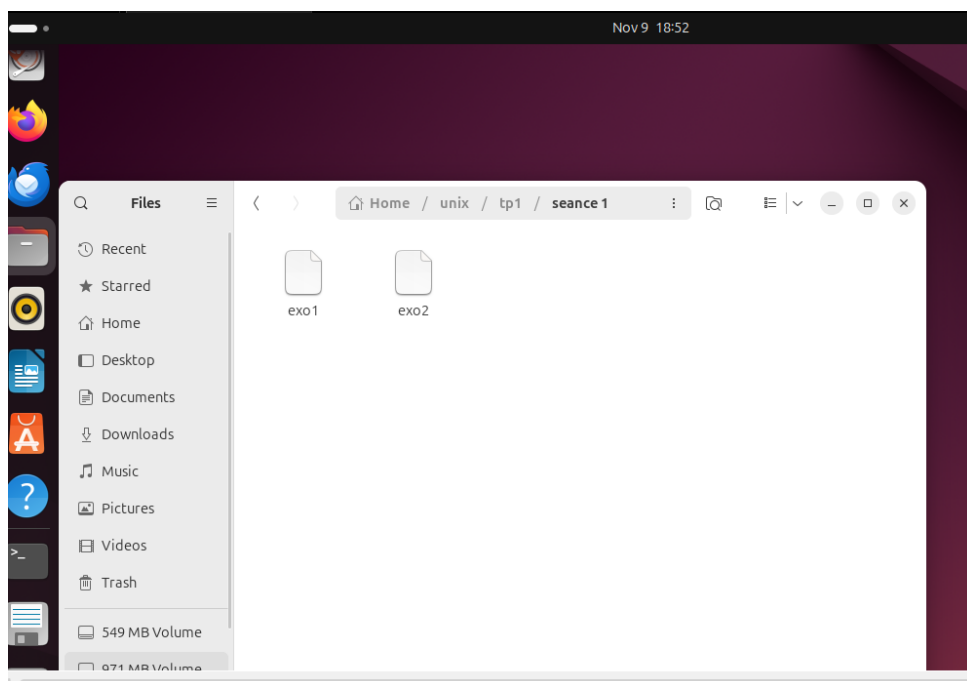

Process Name	User	% CPU	ID	Memory	Disk read total	Disk write
at-spi2-registryd	ubuntu	0.00	2777	786.4 kB	454.7 kB	
at-spi-bus-launcher	ubuntu	0.00	2641	655.4 kB	161.8 kB

gnome-session-binary	ubuntu	0.00	2715	2.9 MB	4.2 MB	

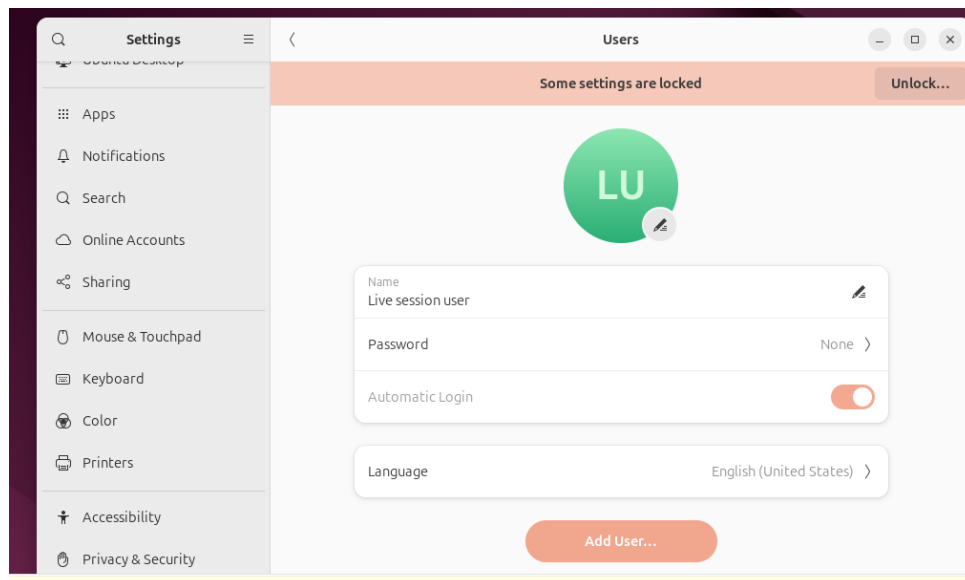

- /bin/ : Commandes de base pour tous les utilisateurs (ls, cp, mv, cat).
- /boot/ : Fichiers de démarrage du système (noyau Linux, GRUB).
- /etc/ : Fichiers de configuration du système et des applications.
- /home/ : Dossiers personnels de chaque utilisateur.
- /lib/ : Bibliothèques partagées nécessaires aux programmes.
- /sbin/ : Commandes d'administration système (reboot, shutdown).

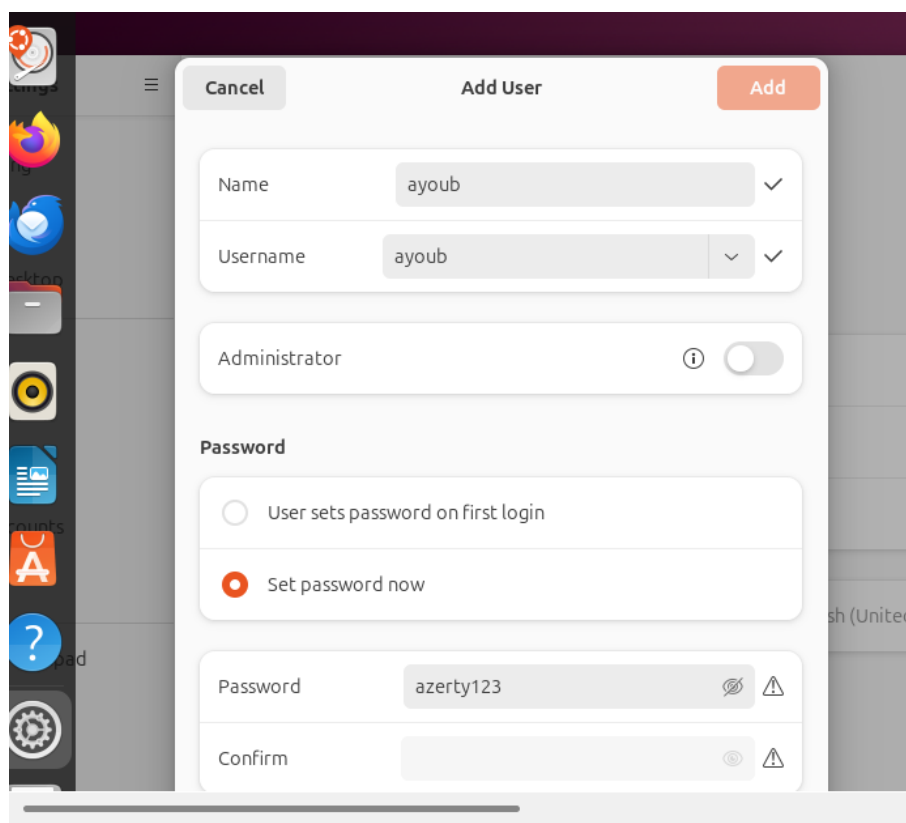

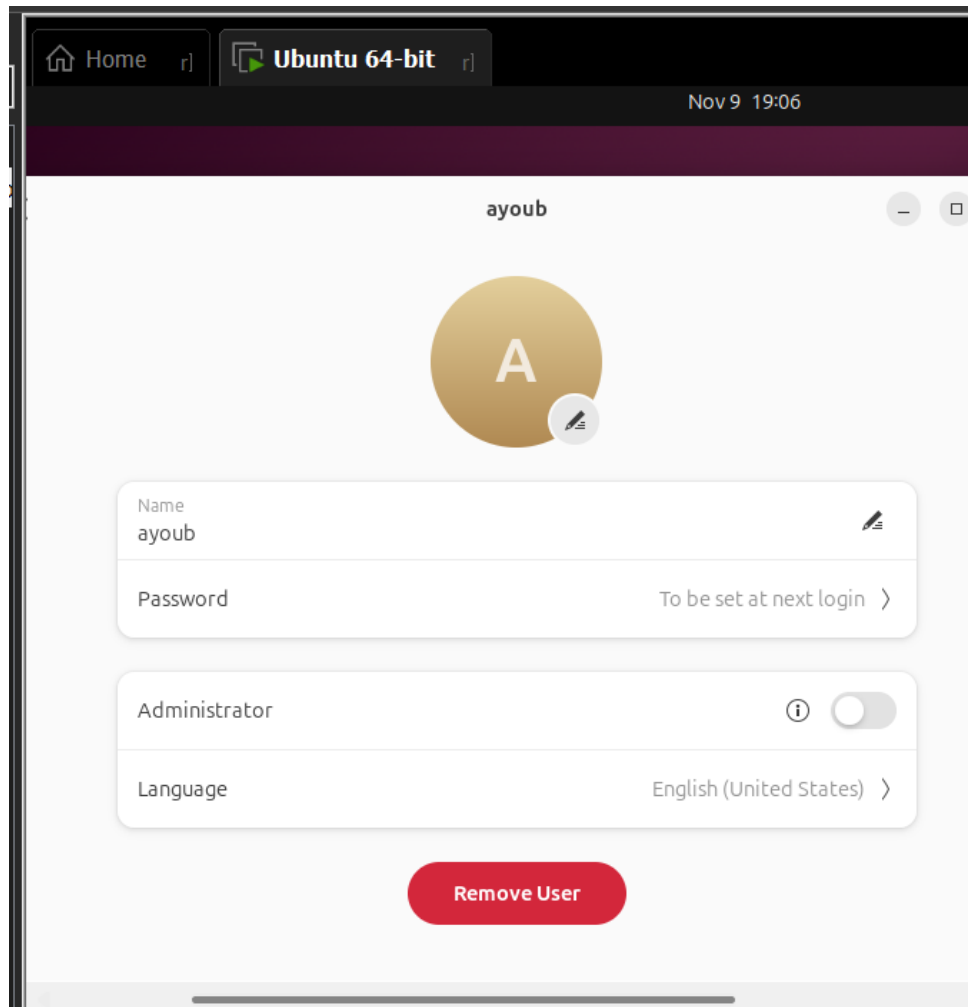

- /tmp/ : Fichiers temporaires, vidé au redémarrage.
- /usr/ : Applications installées et leurs ressources.
- /usr/share/ : Données partagées (icônes, traductions, documentation).
- /var/ : Données variables (logs, cache, bases de données).

1.3 Gestion des utilisateurs

1.4 Invite de commandes

```
ubuntu@ubuntu: ~  
ubuntu:~$ ls  
Downloads  Pictures  python  Templates  Videos  
Music      Public   snap     unix  
ubuntu:~$
```
